The camp has lockable boxes to store valuables. There are also lockers available for Leaders use on the west side of the 223 Bathroom complex just west of the Ship's Store. The upper row of these lockers has electrical outlets for cell phones and other electronic devices. You must provide the locks for both of these.

Many units have a banking system that the Adult Leader supervises. We recommend the use of a banking system and a locked box because, unfortunately, un-ethical behavior does occur.
